

IT-support agent

INSITE IT is a software company with headquarter in Linz (AT) and a location in Chicago (USA) that develops IT solutions for material and construction site management for large construction sites.

As a professional contact, plant engineers appreciate INSITE IT's experience and competence. The software Insite LMS and the mobile app for scanning barcodes and RFID tags, as well as integrated image documentation and GPS positioning, keeps companies updated globally.

Your mission

As an important part of our dedicated support team you will professionally represent our company and

- solve customer inquiries
- install hardware and software
- do system configurations
- design reports
- create documentation
- participate in international projects

Your Profil

- good written and spoken English knowledge
- preferably completed technical training with IT-focus (HTL)
- IT affinity, strong PC skills (Windows) and Microsoft Office skills (Excel, Word ...)
- enthusiasm for digital solutions in the industrial environment
- friendly appearance and customer-oriented way of working
- ideally first experience in the Microsoft .NET environment

Your benefits at INSITE IT

Coffee is available to all employees free of charge

Subsidy for meals in selected restaurants in the nearby neighbourhood

Notebook and modern infrastructure

flexible working hours within the company agreement

regular employee events and good work-life balance

good transport connections (close to Linz main train station, bus, tram)
